

Appln. No. 10/648,895
Amendment
Reply to Final Office Action dated August 31, 2005

Docket No. 9585-4

AMENDMENTS TO THE CLAIMS

This listing will replace all prior versions, and listings, of claims in the application:

1. (Currently amended) A hand-held multi-functional cold cathode lamp, comprising:
a lamp body which has an inner chamber;
at least three light sources including a focus lamp unit disposed at an upper end of the inner chamber, a cold cathode lamp unit at the front end of the lamp body, and a flash lamp unit at the back end of the lamp body;
an electric source circuit accommodated in the inner chamber of the lamp body;
a rope handle attached to the lamp body; and
a siren operable by pulling the rope handle,
wherein in the inner chamber there is an arcuate reflecting unit for focusing light from the focus lamp unit, and a planar reflecting unit for diffusing light from the flash lamp unit.
2. (Currently amended) The ~~hand-held~~ hand-held multi-functional cold cathode lamp according to claim 1, wherein in the inner chamber there are ~~an arcuate reflecting unit, a planar reflecting unit,~~ at least one switch, at least one socket for an outside power source, and a pull switch hook pulled by the rope handle.
3. (Currently amended) The ~~hand-held~~ hand-held multi-functional cold cathode lamp according to claim 1, wherein the said at least three light sources can be used continuously more than 100,000 hours.
4. (Currently amended) The ~~hand-held~~ hand-held multi-functional cold cathode lamp according to claim 1, wherein the said lamp body includes a ring made of rubber or other elastic

material at the upper and lower ends, said ring being easy for user to hold and having a shock resistance function.

5. (Currently amended) The ~~hand-held~~ hand-held multi-functional cold cathode lamp according to claim 1, wherein the cold cathode lamp unit comprises a long-life cold cathode fluorescent lamp ~~is adopted as at least one of the light sources.~~

6. (Currently amended) The ~~hand-held~~ hand-held multi-functional cold cathode lamp according to claim ~~[[5]]~~ 1, wherein ~~at least one of said~~ the light sources ~~[[is]]~~ are sealed by ~~[[a]]~~ transparent or semi-transparent materials to protect a user from heat dissipated from the light sources; ~~such that the light generated by the lamp does not emit heat through the sealing material.~~

7. (Cancelled)
